

The background of the slide is a space-themed image. It shows the curved horizon of Earth from space, with a blue and white atmosphere. A bright, glowing meteor streaks diagonally across the dark, star-filled sky, leaving a long, luminous trail. The overall scene is dark and atmospheric.

Wireless Smart Switch Presentation

We are living in a
changing world...

Car

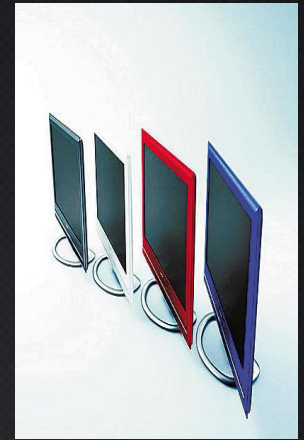

Train

airplane

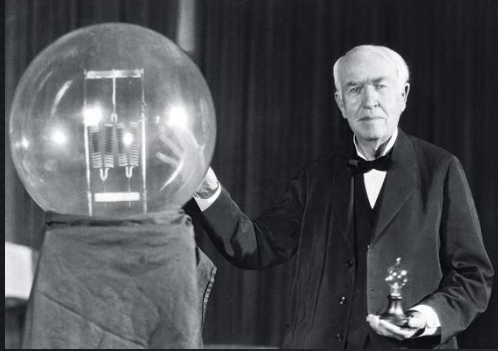

TV

phone

Computer

But there is one thing

Never changed in the past 130 years

It is time to change our old style wired switch !!!

switch

The birth of wireless remote
433MHz switch changed the
traditional way.

Completely get rid of wires ...
internet controlled by smart phone

Crystal Glass

Modular Structure

Materials We Use

Toughened **glass panel**, no hurt even broken

Pure copper wire screws

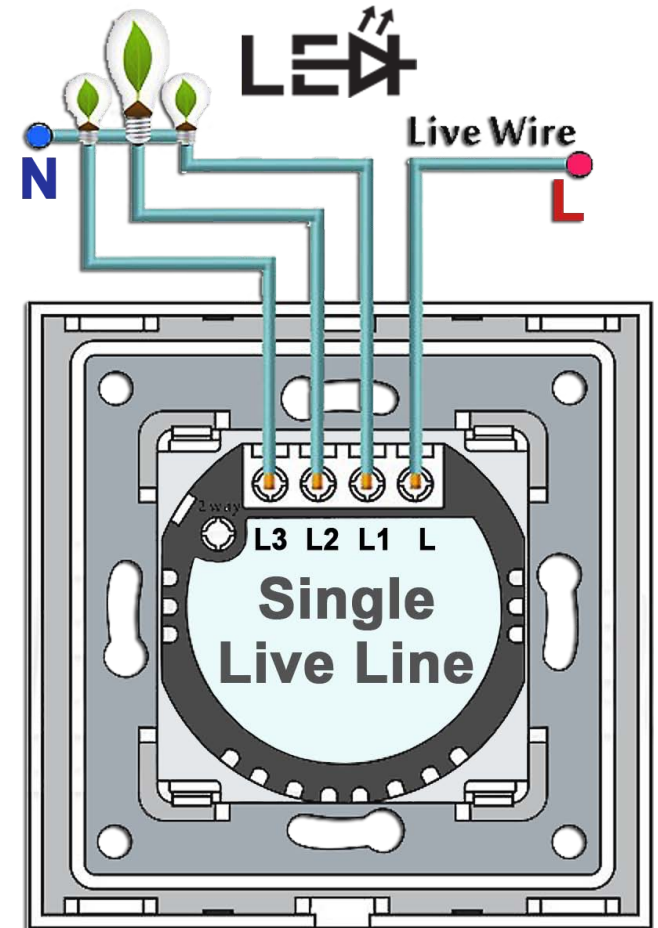

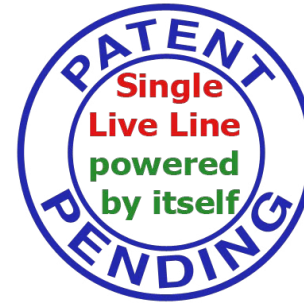

Phosphor copper parts for socket

304 stainless screws for installation

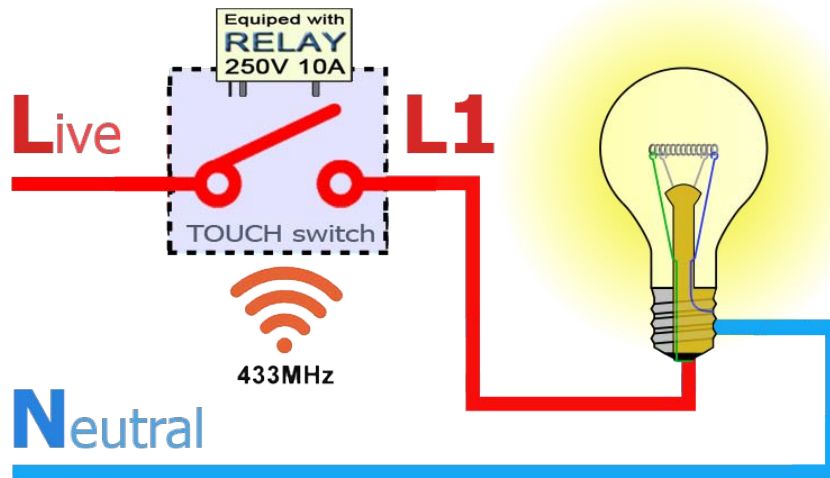

Phosphor copper parts for switch

Toshiba Diode

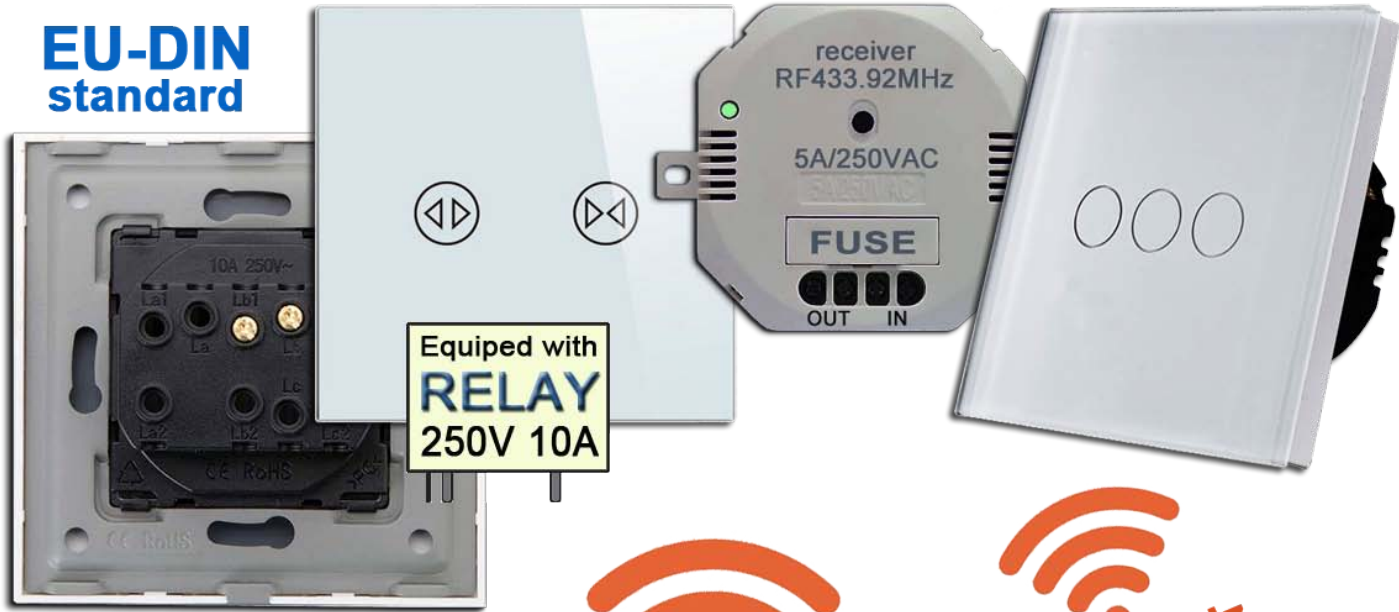

UniOhm Chip resistor for touch switch

Remote Touch Switch - Single Live Line - self powered

**EU-DIN
standard**

Equipped with
RELAY
250V 10A

RF433MHz

RF433MHz

INTERNET

IR signal

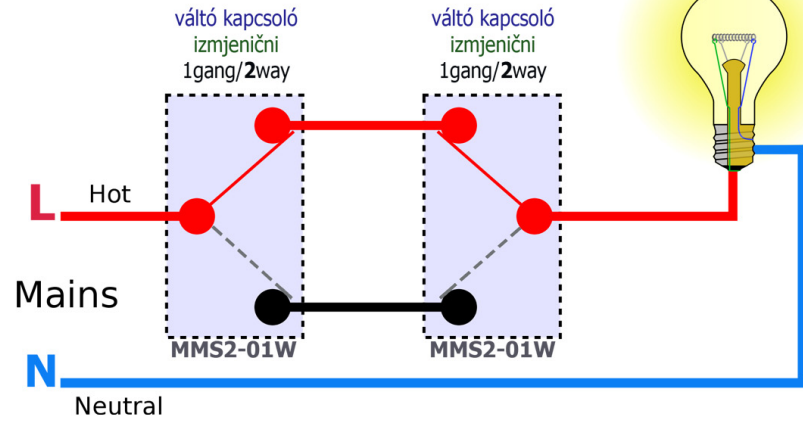

433MHz/315MHz
RF signal

BroadLink

**Changeable
Location**

flexible and convenient

Water Proof ,can be used in bathroom

Less Cost

In a 50 floors building, if use all kinetic energy switch, can save 27km wire , 2.5 tons PVC tube , reduce 6 tons CO2 release.

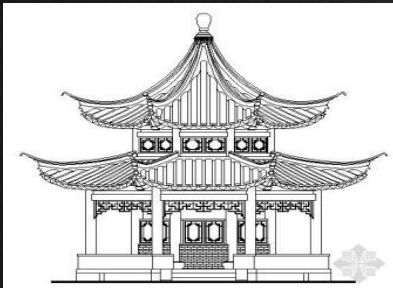

Big Save

Lighting system cost reduce 30%

Construction speed up 40%

Wide Applications

- *Home*
- *Office*
- *Hotel*
- *Supermarket*
- *Factory*
- *Hospital*
- *Ancient buildings*
- *Hazard locations*
- *Public buildings*
- *others...*

Marketing

Sample Projects

Singapore (public housing)

**Energy Acquisition,
lights your world !**

Thanks!
