

## AM-430

### HIGH definition DIGITAL AUDIO module

- Dynamic Dolby noise reduction sound
- Low noise processing chips
- Built in micro processing chip and automatic gain control(AGC) circuit
- Built-in AGC
- Made of plastic
- Input: Electret Condenser Microphone, 100Hz~1600Hz
- Screw terminal for DC and Audio connection

### Specifications

Voltage	12VDC
Current	25mA
Monitoring scope	20m <sup>2</sup> -150m <sup>2</sup>
Audio output	2.5Vp-p/600Ω
Input	100Hz~1600Hz
Size	Ø110mm x 52mm(H), 100g
